SUBJECT INDEX

Ability of the fungus *Pleurotus pulmonarius* to immobilise preparasitic nematode larvae, 246
Activity of some enzymes in the serum of dromedary camels, 174
Aflatoxin B_1 on the efficacy of turkey herpesvirus vaccine against Marek's disease, Effect of, 115
African swine fever virus, Inhibition of natural killer activity in porcine mononuclear cells by, 317
Albendazole sulphoxide in sheep following coadministration of parenteral netobimin and liver oxidase inhibitors, Enhancement of the plasma concentration of, 306
Alopecia, Epidermal dexamethasone receptors in dogs with confirmed hyperadrenocorticalism, hypothyroidism or undiagnosed hormonal, 335
Amperozide: are there social influences on sow-litter productivity? Observations on the action of, 169
Anaemia in Atlantic salmon (*Salmo salar*), A morphological study of the gross and light microscopic lesions of infectious, 215
Analgesic activity and respiratory effects of butorphanol in sheep, 19
Antigenic diversity of *Cowdria ruminantium* isolates determined by cross-immunity, 24
Antineutrophil antibodies by enzyme-linked immunosorbent assay, Detection of equine antiplatelet and, 292
Antiplatelet and antineutrophil antibodies by enzyme-linked immunosorbent assay, Detection of equine, 292
Antitrochanteric degeneration in adult female turkeys of four strains of different mature size, Histopathology of, 327
Arthritis, Interleukin-1-like activity in synovial fluids and sera of horses with, 72
Avian influenza virus on the ability of turkeys to eliminate *Pasteurella multocida* from the respiratory tract, A quantitative measure of the effect of, 254
Avian tibial dyschondroplasia; a comparison of the incidence and severity as assessed by gross examination and histopathology, 48

Biometrician? When do I call in a, 229
Bone tumours, Characterisation of complex karyotype changes in two canine, 341
Brucella abortus, Experimental infection of goat fetuses in utero with a stable, rough mutant of, 123
Butorphanol in sheep, Analgesic activity and respiratory effects of, 19

Camelids, Detection of antibodies to mycoplasmas in South American, 250
Camels, Activity of some enzymes in the serum of dromedary, 174
Canine coronavirus infection in the dog following oronasal inoculation, 11
Castration and tail docking with tight rubber rings in young lambs, Effects of local anaesthesia and intravenous naloxone on the changes in behaviour and plasma concentrations of cortisol produced by, 193
Castration on behaviour and plasma cortisol concentrations in young lambs, kids and calves, Effects of, 149
Ceftazidime in sheep and its penetration into tissue and peritoneal fluids, Pharmacokinetics of, 233
Cellobiose/mannitol test in gluten-sensitive enteropathy of Irish setters, Differential sugar absorption for the assessment of canine intestinal permeability: the, 83
Cephalosporins against *Staphylococcus aureus* isolated from bovine mastitis, Comparative in vitro activity of three, 339
Characterisation of complex karyotype changes in two canine bone tumours, 341
Chromosomal hyperdiploidy in a feline sarcoma, 227
Clinical and serum antibody responses of lambs to infection by *Listeria monocytogenes*, 185
Clinical signs and humoral immune responses in horses following equine herpesvirus type-1 infection and their susceptibility to equine herpesvirus type-4 challenge, 141
Comparative in vitro activity of three cephalosporins against *Staphylococcus aureus* isolated from bovine mastitis, 339
Cooperia oncophora, Effect of sustained release and pulse release anthelmintic intraruminal devices on development of pathophysiological changes and parasite populations in calves infected with *Ostertagia ostertagi* and, 223
Coronavirus infection in the dog following oronasal inoculaton, Canine, 11
Cortisol concentrations in young lambs, kids and calves, Effects of castration on behaviour and plasma, 149
Cortisol produced by castration and tail docking with tight rubber rings in young lambs, Effects of local anaesthesia and intravenous naloxone on the changes in behaviour and plasma concentrations of, 193
Cow-calf behaviour in relation to first suckling, 6
Cowdria ruminantium isolates determined by cross-immunity, Antigenic diversity of, 24
Cryptosporidium parvum: investigation of sporozoite excystation in vivo and the association of merozoites with intestinal mucus, 264
Cystic ovarian disease and effect of progesterone treatment or manual rupture, Lack of LH response to cestradiol treatment in cows with, 180

DEAE-dextran and *Staphylococcus aureus* on the lymph pathways and filtering capacity of popliteal lymph nodes in sheep, Effects of the adjuvant, 100
Description on the effects of a single gene which inhibits the normal metabolic response of newborn lambs to exogenous noradrenaline, 24
Detection of antibodies to mycoplasmas in South American camelids, 250
Detection of equine antiplatelet and antineutrophil antibodies by enzyme-linked immunosorbent assay, 292
Dexamethasone receptors in dogs with confirmed hyperadrenocorticalism, hypothyroidism or undiagnosed hormonal alopecia, Epidermal, 335
Differential sugar absorption for the assessment of canine intestinal permeability: the cellobiose/mannitol test in gluten-sensitive enteropathy of Irish setters, 83
Disposition of oxfendazole in goats and efficacy compared with sheep, 258
D1-β-tocopheryl acetate and d-β-tocopheryl polyethylene glycol-1000 succinate, Plasma β-tocopherol profiles in sheep after oral administration of, 177
Dyschondroplasia: a comparison of the incidence and severity as assessed by gross examination and histopathology, Avian tibial, 48

Echinococcus granulosus, In vitro and in vivo efficacy of epsiprantel against, 332
Effect of aflatoxin B_1 on the efficacy of turkey herpesvirus vaccine against Marek's disease, 115
Effect of chemicals on glutathione peroxidase of chick liver, 120
Effect of depth of immersion in the waterbath on the effectiveness of electrical stunning in chickens, 200
Effect of pancreatectomy on plasma activities of amylase, isoamylase, lipase and trypsin-like immunoreactivity in dogs, 78
Effect of sustained release and pulse release anthelmintic intraruminal devices on development of pathophysiological changes and parasite populations in calves infected with *Ostertagia ostertagi* and *Cooperia oncophora*, 223
Effect of weaning on antibody responses and nematode parasitism in Merino lambs, 128
Effects of castration on behaviour and plasma cortisol concentrations in young kids and calves, 149
Effects of local anaesthesia and intravenous naloxone on the changes in behaviour and plasma concentrations of cortisol produced by castration and tail docking with tight rubber rings in young lambs, 193
Effects of the adjuvant DEAE-dextran and *Staphylococcus aureus* on the lymph pathways and filtering capacity of popliteal lymph nodes in sheep, 100
EHV-1-induced abortion, A murine model for studying, 94
Eimeria tenella isolated from Britain and Bangladesh, Limited heterogeneity between strains of, 29
Endotoxin infusions: recovery of milk yield despite a persistently high somatic cell count, Lactating cows become partially refractory to frequent intramammary, 272
Enhancement of the plasma concentration of albendazole sulphoxide in sheep following coadministration of parenteral netobimin and liver oxidase inhibitors, 306
Epidermal dexamethasone receptors in dogs with confirmed hyperadrenocorticalism, hypothyroidism or undiagnosed hormonal alopecia, 335
Epizootic bovine abortion, Surface markers on bovine fetal lymphocytes and immunoglobulin synthesis in the congenital infection related to, 239
Epsiprantel against *Echinococcus granulosus*, In vitro and in vivo efficacy of, 332
Ethanol euthanasia and its effect on the binding of antibody generated against an immunogenic peptide construct, 164
Euthanasia and its effect on the binding of antibody generated against an immunogenic peptide construct, Ethanol, 164
Evaluation of total serum bile acid concentrations for the diagnosis of hepatobiliary disease in cattle, 133
Examination of samples from experimentally infected heifers by an N-acetyl-β-D-glucosaminidase test and an antigen-capture ELISA, 299
Experimental infection of goat fetuses in utero with a stable, rough mutant of *Brucella abortus*, 123
Expression of procoagulant activity of equine lung macrophages: stimulation of blood lymphocytes, 278

Factor VIII activity and von Willebrand factor antigen concentration in vitro, Stability of canine, 313
Fructosamine determination in monitoring gastrointestinal parasitism, Interaction of *Ostertagia* and *Nematodirus* species in sheep and the potential of serum, 322

Glutathione peroxidase of chick liver, Effect of chemicals on, 120
Gluten-sensitive enteropathy of Irish setters, Differential sugar absorption for the assessment of canine intestinal permeability: the cellobiose/mannitol test in, 83

Hepatobiliary disease in cattle, Evaluation of total serum bile acid concentrations for the diagnosis of, 133
Herpesvirus type-1 infection and their susceptibility to equine herpesvirus type-4 challenge, Clinical signs and humoral immune responses in horses following equine, 141
Herpesvirus vaccine against Marek's disease, Effect of aflatoxin B_1 on the efficacy of turkey, 115
Herpesvirus-1 in calves experimentally infected with bovine herpesvirus-1 and *Pasteurella haemolytica*, Protective effect of inactivated bovine, 209
Histopathology of antitrochanteric degeneration in adult female turkeys of four strains of different mature size, 327
Hyperadrenocorticalism, hypothyroidism or undiagnosed hormonal alopecia, Epidermal dexamethasone receptors in dogs with confirmed, 335
Hypothyroidism or undiagnosed hormonal alopecia, Epidermal dexamethasone receptors in dogs with confirmed hyperadrenocorticalism, 335

Immunoglobulin synthesis in a congenital infection related to epizootic bovine abortion, Surface markers on bovine fetal lymphocytes and, 239
Immunological responsiveness in Merino sheep, Post natal ontogeny of, 88

Immunoreactivity in dogs, Effect of pancreatectomy on plasma activities in amylase, isoamylase, lipase and trypsin-like, 78
In vitro and in vivo efficacy of epsiprantel against *Echinococcus granulosus*, 332
Inhibition of natural killer activity in porcine mononuclear cells by African swine fever virus, 317
Interaction of *Ostertagia* and *Nematodirus* species in sheep and the potential of serum fructosamine determination in monitoring gastrointestinal parasitism, 322
Interleukin-1-like activity in synovial fluids and sera of horses with arthritis, 72
Intestinal permeability: the cellobiose/mannitol test in gluten-sensitive enteropathy of Irish setters, Differential sugar absorption for the assessment of canine, 83
Intraperitoneal vaccination of pigs to control *Mycoplasma hyopneumoniae*, 285

Karyotype changes in two canine bone tumours, Characterisation of complex, 341

Lack of LH response to oestradiol treatment in cows with cystic ovarian disease and effect of progesterone treatment or manual rupture, 180
Lactating cows become partially refractory to frequent intramammary endotoxin infusions: recovery of milk yield despite a persistently high somatic cell count, 272
Late potentials and F-ratio values in dogs, Nature of the, 1
Limited heterogeneity between strains of *Eimeria tenella* isolated from Britain and Bangladesh, 29
Listeria monocytogenes, Clinical and serum antibody responses of lambs to infection by, 185
Liver oxidase inhibitors, Enhancement of the plasma concentration of albendazole sulphoxide in sheep following coadministration of parenteral netobimin and, 306
Lymph pathways and filtering capacity of popliteal lymph nodes in sheep, Effects of the adjuvant DEAE-dextran and *Staphylococcus aureus* on the, 100
Lymphocyte subpopulations in peripheral blood of sheep experimentally infected with tick-borne fever, 40

M cells in the rectum of calves, 107
Marek's disease, Effect of aflatoxin B_1 on the efficacy of turkey herpesvirus vaccine against, 115
Mastitis, Comparative in vitro activity of three cephalosporins against *Staphylococcus aureus* isolated from bovine, 339
Mechanical properties of the isolated equine trachea, 55
Merozoites with intestinal mucus, *Cryptosporidium parvum*: investigation of sporozoite excystation in vivo and the association of, 264
Mitogen injection in sheep, with special reference to eosinophil leucocytes, Some cutaneous responses to, 44
Mitogen- and TCGF-induced lymphocyte blastogenesis by prostaglandins and supernatant from equine embryos and endometrium, Regulation of, 61
Morphological and ultrastructural studies of *Mycoplasma flocculare* and *Mycoplasma hyopneumoniae* In vitro, 155
Morphological study of the gross and light microscopic lesions of infectious anaemia in Atlantic salmon (*Salmo salar*), A, 215
Murine model for studying EHV-1-induced abortion, A, 94
Mycoplasma agalactiae and *M mycoides* (LC) in naturally infected goat herds, Use of an ELISA for differential diagnosis of, 66
Mycoplasma flocculare and *Mycoplasma hyopneumoniae* in vitro, Morphological and ultrastructural studies of, 155
Mycoplasma hyopneumoniae in vitro, Morphological and ultrastructural studies of *Mycoplasma flocculare* and, 155
Mycoplasma hyopneumoniae, Intraperitoneal vaccination of pigs to control, 285
Mycoplasma mycoides (LC) in naturally infected goat herds, Use of an ELISA for differential diagnosis of *Mycoplasma agalactiae* and, 66
Mycoplasmas in South American camelids, Detection of antibodies to, 250

N-acetyl-ß-D-glucosaminidase test and an antigen-capture ELISA, Examination of samples from experimentally infected heifers by an, 299
Naloxone on the changes in behaviour and plasma concentrations of cortisol produced by castration and tail docking with tight rubber rings in young lambs, Effects of local anaesthesia and intravenous, 193
Nature of the late potentials and F-ratio values in dogs, 1
Nematode larvae, Ability of the fungus *Pleurotus pulmonarius* to immobilise preparasitic, 246
Nematode parasitism in Merino lambs, Effect of weaning on antibody responses and, 128
Nematodirus species in sheep and the potential of serum fructosamine determination in monitoring gastrointestinal parasitism, Interaction of *Ostertagia* and, 322
Netobimin and liver oxidase inhibitors, Enhancement of the plasma concentration of albendazole sulphoxide in sheep following coadministration of parenteral, 306
Noradrenaline, Description of the effects of a single gene which inhibits the normal metabolic response of newborn lambs to exogenous, 34

Observations on the action of amperozide: are there social influences on sow-litter productivity?, 169
Occurrence and diversity of plasmids in ovine isolates of *Pasteurella haemolytica*, 203
Oestradiol treatment in cows with cystic ovarian disease and effect of progesterone treatment or manual rupture, Lack of LH response to, 180
Ostertagia and *Nematodirus* species in sheep and the potential of serum fructosamine determination in monitoring gastrointestinal parasitism, Interaction of, 322
Ostertagia ostertagi and *Cooperia oncophora*, Effect of sustained release and pulse release anthelmintic intraruminal devices on development of pathophysiological changes and parasite populations in calves infected with, 223
Ostertagia ostertagi in neonatal calves: establishment of infection in ruminating and non-ruminating calves, 344
Oxfendazole in goats and efficacy compared with sheep, Disposition of, 258

Pasteurella haemolytica, Occurrence and diversity of plasmids in ovine isolates of, 203
Pasteurella haemolytica, Protective effect of inactivated bovine herpesvirus-1 in calves experimentally infected with bovine herpesvirus-1 and, 209
Pasteurella multocida from the respiratory tract, A quantitative measurement of the effect of avian influenza virus on the ability of turkeys to eliminate, 254
Pharmacokinetics of ceftazidime in sheep and its penetration into tissue and peritoneal fluids, 233
Plasma β-tocopherol profiles in sheep after oral administration of d-β-tocopherol acetate and d-β-tocopheryl polyethylene glycol-1000 succinate, 177
Pleurotus pulmonarius to immobilise preparasitic nematode larvae, Ability of the fungus, 246
Post natal ontogeny of immunological responsiveness in Merino sheep, 88
Procoagulant activity by equine lung macrophages: stimulation by blood lymphocytes, Expression of, 278
Progesterone treatment or manual rupture, Lack of LH response to oestradiol treatment in cows with cystic ovarian disease and effect of, 180
Protective effect of inactivated bovine herpesvirus-1 in calves experimentally infected with bovine herpesvirus-1 and *Pasteurella haemolytica*, 209

Quantitative measurement of the effect of avian influenza virus on the ability of turkeys to eliminate *Pasteurella multocida* from the respiratory tract, A, 254

Regulation of mitogen- and TCGF-induced lymphocyte blastogenesis by prostaglandins and supernatant from equine embryos and endometrium, 61
Rickettsia from Zimbabwe, Transient infections of goats with a novel spotted fever group, 268

Salmo salar, A morphological study of the gross and light microscopic lesions of infectious anaemia in Atlantic salmon, 215
Sarcoma, Chromosomal hyperdiploidy in a feline, 227
Some cutaneous responses to mitogen injection in sheep, with special reference to eosinophil leucocytes, 44
Sporozoite excystation in vivo and the association of merozoites with intestinal mucus, *Cryptosporidium parvum*: investigation of, 264
Spotted fever group rickettsia from Zimbabwe, Transient infections of goats with a novel, 268
Stability of canine factor VIII activity and von Willebrand factor antigen concentration in vitro, 313
Staphylococcus aureus isolated from bovine mastitis, Comparative in vitro activity of three cephalosporins against, 339
Staphylococcus aureus on the lymph pathways and filtering capacity of popliteal lymph nodes in sheep, Effects of the adjuvant DEAE-dextran and, 100
Stunning in chickens, Effect of depth of immersion in the waterbath on the effectiveness of electrical, 200
Suckling, Cow-calf behaviour in relation to first, 6
Surface markers on bovine fetal lymphocytes and immunoglobulin synthesis in a congenital infection related to epizootic bovine abortion, 239

Tail docking with tight rubber rings in young lambs, Effects of local anaesthesia and intravenous naloxone on the changes in behaviour and plasma concentrations of cortisol produced by castration and, 193
TCGF-induced lymphocyte blastogenesis by prostaglandins and supernatant from equine embryos and endometrium, Regulation of mitogen- and, 61
Tick-borne fever, Lymphocyte subpopulations in peripheral blood of sheep experimentally infected, 40
Trachea, Mechanical properties of the isolated equine, 55
Transient infections of goats with a novel spotted fever group rickettsia from Zimbabwe, 268

Use of an ELISA for differential diagnosis of *Mycoplasma agalactiae* and *M mycoides* (LC) in naturally infected goat herds, 66
